

Caryopteris clandonensis **“First Choice”**

Common Name: Bluebeard

Bloom Time: July-September

Height: 32-36”

Exposure: Full Sun

General Information: A compact form with satiny foliage. Inky blue buds open to rich, lilac-blue flowers, darker than ‘Dark Knight’. An attractive late-bloomer, it will add color to your garden when many other perennials are finished for the season. Drought tolerant.
