

Lilium ‘Tiny Bee’

Common Name: Asiatic Lily

Bloom Time: May-June

Height: 18-24”

Exposure: Full Sun to Partial Shade

General Information: These unscented lilies will produce more flowers per stem than the older “Pixie” varieties and can tolerate some shade without needing to be staked, though they will grow a bit taller there. Perfect for the garden or containers, these require consistently moist soil rather than drying out between waterings.
