

# Asarina Mystic Pink

Blooms arise in great clusters!

A dainty vine for the patio or border, Mystic Pink is overrun with bright pink trumpets, arising in great clusters against fresh-green foliage. The flowers are 1 1/2 inches long and 3/4-inch wide, with soft pink throats and a symmetrical 5-petalled shape.

Asarina is a clinging vine, so give it a trellis, netting, or other open-patterned support to climb. It reaches just 6 feet tall--a good size for large containers as well as trellises and even arbors. Best in full sun to part shade.
