

# **Black-Eyed Susan Vine**

## ***Thunbergia alata***

This vine is ideal for growing up through fences, gates, pillars and poles. Especially effective in containers, where its very full habit looks incredibly lush! The 1- 2 inch blooms arise profusely, facing out from the vine. Petal color ranges from mid-yellow to deep orange, and many blooms feature the characteristic black eye.

4" pots 10 oz. (295ml)
