

Celosia plumosa Castle Yellow

Sunny spears of bright yellow reach 6 inches tall on this uniform, very vigorous Plumed Celosia! The castle series has our highest recommendation for superb garden performance, long-lasting color that refuses to fade, and charming, very uniform 12-inch-by-12-inch size. Very easy to grow in any sunny, well-drained spot, it blooms just a few weeks from sowing and doesn't quit till frost. Exceptionally low-maintenance, it tolerates extremes of heat and drought without dropping a petal. Best of all, the plants are very uniform in size, so that a column along a walkway or in the front of the border always looks neat. The perfect size for containers, this Celosia is long-lasting in cut arrangements as well.
