

# Cosmos Sensation Mix

Cosmos do well in any sunny location and bloom until frost if flowers continue to be picked. Once established, this annual is heat and drought resistant. Height reaches 3-4', and when given plenty of room they branch freely to produce abundant flowers. Cosmos are excellent for use in large beds as well as for cut flowers. Mix includes deep crimson, soft pink, and white flowers, and they attract birds and butterflies.

Pack of 4 – 12 oz (354 ml)

Cell – 3 oz (89 ml)

Grown by: Glick's Greenhouse Oley PA 19547
