

# Marigold

## Bonanza Bolero

Boasting cheerful splashes of color and a long-blooming, very tidy habit, Bonanza Bolero was a shoo-in for an AAS award! These 2 1/4-inch blooms are a rich golden-yellow surrounding a frilly orange center and liberally splashed with deep red. They arise atop neat, compact 10-inch plants. A great choice for formal plantings, the front of the border, and containers, Bonanza Bolero is also superb for edging and even for interplanting with vegetables to repel nematodes! And where Marigolds go, butterflies follow!

Very easy to grow in full sun.
