

# Morning Glory Mt. Fuji Mix

Colossal Blooms in 5 Vibrant Colors!

6 inches across, these blooms explode with color--sky-blue, violet, royal purple, pink, and deep crimson!

Our photo cannot do justice to the astonishingly vivid and intense colors this glorious mix provides! From midsummer until frost, Mt. Fuji explodes with iridescence--luminous sky-blue, violet, royal purple, bright pink, and deep crimson! Highlighted by a brilliant white pinwheel and picotee pattern, each gargantuan 6-inch bloom stays open longer than other Morning Glories, as if showing off its incredible size, color, and form! The lobed foliage, of bright green generously splashed with white and gray tones, is equally attractive.
