

Petunia Purple Wave

This AAS winner spreads up to 2 inches PER DAY!

Low, Wide, Ultra-Colorful Ground Cover! Perfect for Baskets!
Just 9 plants cover more than 100 square feet!

Petunia Wave has taken the gardening world by storm since its introduction a few years ago. Its spreading habit is just stunning, covering ground at the rate of several inches every single day, and trailing lots of big, colorful blooms as it goes! Purple is the Wave that started it all, and it's still undoubtedly the finest for big blooms and rapid coverage. The vibrant rosy-purple blooms simply cover this 6-inch-tall plant--and that's saying a lot, because the densely-branched plantspreads 5 feet or more before you can turn around! Purple Wave won an AAS award, and it just keeps piling up the praise from gardeners everywhere! Purple Wave is magnificent in hanging baskets, windowboxes, and large containers, as well as an unrivalled ground cover for bright sun. Stupendous!
