

Dwarf Strawflower

‘Bright Bikini Mix’

(Helichrysum)

Big blooms on little plants--and plenty of them with this early-to-bloom, late-to-quit dwarf mix! Specially blended to combine bright color and large 2-inch bloom size with compact, floriferous 1-foot habit, Bright Bikini Mix concentrates a lot of rich color into very little plants! Easy-care 12-inch plants thrive in full sun and ordinary garden soil, blooming early and continuing all summer. To dry, cut the flowers before they are fully open, remove any foliage, and hang the branch upside-down in a dry, well-ventilated location.

Pack of 4 – 12 oz (354 ml)

Cell – 3 oz (89 ml)

Grown by: Glick's Greenhouse Oley PA 19547
