

Dreamland Mix

Zinnia

The 'Dreamland' series is a dwarf variety with a compact growth habit. They produce large Dahlia like double flowers measuring 4" across. The flowers are excellent for cutting with a exceptional vase life. Their great for attracting Butterflies too!

Plant in full sun in fertile well drained soil in beds or mixed containers. They will tolerate light shade... but require 6 hours of sun for best growth. Space plants 6" - 10" apart depending on how quickly you wish the area to fill in.

Pack of 4 - 12 oz. (354ml)
cell - 3 oz. (89ml)
grown by: Glick's Greenhouse Oley Pa 19547
